Kidde ECS Advanced Delivery
Fire Suppression System
Component Description

Combined Agent Cylinder and Nitrogen Driver Straps
(P/N: 06-236126-001 and 06-236127-001)

FEAT URES

- Available in Two Sizes
- Convenience of One Strap for Two Cylinders
- Easily Installed
- Custom Fit for Phoenix Systems
- SAE 1020 Steel
- UL Listed, File Number 4674
- FM Approved
- RoHS Compliant

DESCRIPTION

The Kidde ECS Advanced Delivery Fire Suppression System Combined Cylinder Strap offers the convenience of one strap installation for a two cylinder system. Made of high quality steel, the strap is durable enough to withstand typical installation environments and is designed for easy, secure installation. Custom made for use with the Kidde ECS Advanced Delivery Systems, the strap is available in two sizes:

<td>200 lb Agent Cylinder and 2300 cu. in.</td>
<td>225 lb Agent Cylinder and 2300 cu. in. Nitrogen Driver</td>
</tr>
</tbody>
</table>

INSTALLATION

The agent cylinder and nitrogen driver cylinders are secured in place using the combined cylinder strap. The strap is bolted to a solid wall or a strut assembly in three locations: left, right and center. Use 1/2-inch threaded rod and/or 1/2-inch diameter nuts, bolts and washers to secure the mounting strap to a vertical surface. After the containers are securely mounted, they can then be connected to the discharge piping per the system drawings.
