

Kidde ECS Advanced Delivery Fire Suppression System Component Description

Effective: October 2014

K-85-109

Escutcheon Plates, 3-inch and 5-inch

FEATURES

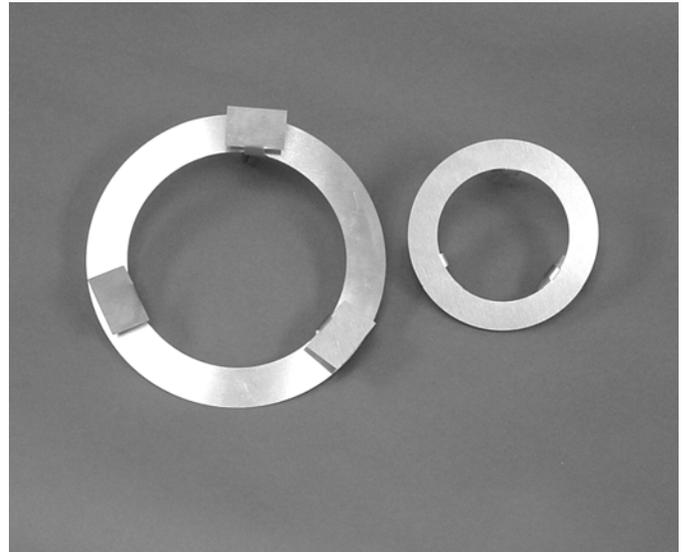

- Available in Two Sizes
- Bendable Tabs Adapt to Fit Ceiling Tile
- Easily Installed
- Aesthetically Pleasing
- Can be Primed or Painted Any Color to Match Ceiling Color
- RoHS Compliant

DESCRIPTION

The Kidde ECS Advanced Delivery Fire Suppression System Escutcheon Plates are available for applications where esthetics are a concern. The plates are available in a 3-inch size for use with 1/2- and 3/4-inch nozzles, and in a 5-inch size for use with 1-inch to 2-inch nozzles. Bendable side tabs allow the plates to adapt to fit ceiling tiles from 1/2-inch to 3/4-inch thick. The plates are easy to install and can take a paint finish to match the surrounding ceiling color for an unobtrusive installation.

INSTALLATION

Once the nozzle location has been determined, cut a hole in the ceiling tile based on the referenced inner diameter shown in the ordering information table. Once the hole has been cut, bend up the tabs and position escutcheon plate in place. Bend the tips of the tabs so that the tabs catch the tile and are not able to be pulled through (see Figure 1).

SPECIFICATIONS

MATERIALS

Body: Stainless Steel

Finish: 150 grain finish

Approximate Weight:

3-inch– 0.1 lb. (45 g)

5-inch– 0.2 lb. (91 g)

ORDERING INFORMATION

Description	Part Number	Dim A (Outer Dia.)	Dim B (Inner Dia.)
3" Escutcheon	06-236133-001	4.88 in.	2.25 in.
5" Escutcheon	06-236134-001	7.50 in.	3.75 in.
